LADY IN GREEN

Instrumental intro: verse one.

G Am

Lady in green

D G

Bright-colored raincoat, hands brushing rolled up jeans

Am

Lady in green

D G

Sweet conversations with people that I've never seen

C

This is a love song to you

D G

'Tho' we've never spoken

Am

I think that there's a spirit in you

D G

Of hearts that can't be broken

Lady in green

I see you walking and talking this side of my dreams

Lady in green

The streets of the city are harboring you, so it seems

And often there's a smile on your face

Words I hear in passing

Could it be your friend I can't see

Always leaves you laughing

Lady in green

Sometimes I wonder -- is anyone waiting at home?

Lady in green

The night's getting colder -- does anyone care -- do you sleep alone?

Who's to know the spirit in you

Who knows where your heart goes?

Maybe there's a place just for you

Arms to shelter God's sweet rose

INstrumental

Lady in green

My fantasy ramblings have little to do with your life

Lady in green

Cold winds will bend you -- your poverty cuts like a knife

This is a love song to you

A song to touch your spirit

And may my hands reach out to you

May you someday hear it
